Front-End Developer

I'm a front-end developer with a strong ability for learning and collaborative skills and a passion for creating responsive and user-friendly websites also skilled in collaborating with back-end developers and staying up-to-date on emerging technologies.

Work Experience and Projects

- **Cinema Base (Movies information site)**:
  Developed and enhanced a movie database website offering search, ratings, and recommendations; integrated APIs for real-time updates on new films and series
  Demo: https://cinema-base.vercel.app/
  Code: https://github.com/Os1907/Cinema-Base
  Tools: Implemented using Next-js as a JavaScript library, Tailwind CSS as a CSS framework, and TypeScript for efficient code

- **Nova store (E-Commerce application)**:
  Nova Store is an e-commerce application. developed in collaboration with backend developers, it connects with APIs.
  Demo: https://os1907.github.io/Nova-shop/
  Code: https://github.com/Os1907/Nova-shop
  Tools: Implemented using React-js as a JavaScript library, Tailwind CSS as a CSS framework, different libraries such as React Router DOM for routing, Formik, and Yup to handle data validation, Plus Axios and React Query for managing requests and responses

- **Future Tech (Future Tech interested in AI news)**:
  Developed a dynamic website project converting Figma designs into a live website, showcasing expertise in UI development, and responsive design.
  Demo: https://future-tech-liart.vercel.app/
  Code: https://github.com/Os1907/Future-Tech
  Tools: Implemented using Next-js as a JavaScript library and Tailwind CSS as a CSS framework

- **Estatein (Real Estate Company)**:
  Developed a dynamic website project converting Figma designs into a live website, showcasing expertise in UI development, responsive design
  Demo: https://os1907.github.io/Estatein-/
  Code: https://github.com/Os1907/Estatein-
  Tools: Implemented using React-js as a JavaScript library, demonstrating proficiency in Tailwind CSS for enhanced styling, and React Router for routing

- **RecipUi (Recipes site)**:
  Website designed to showcase a collection of meals with detailed descriptions that connect with APIs
  Demo: RecipUi (recip-ui.vercel.app)/
  Code: https://github.com/Os1907/RecipUi
  Tools: Implemented using Next-js as a JavaScript library and Tailwind CSS as a CSS framework

- **Static Store**:
  Developed a dynamic website by converting Adobe XD design to functional pages
  Demo: https://os1907.github.io/StoreName/
  Code: https://github.com/Os1907/StoreName
  Tools: Implemented using React-js as a JavaScript library, Tailwind CSS as a CSS framework and React Router for routing

Education

- **Route IT Training Center:** Front End Developer Diploma.
- **Faculty of Commerce, English Section at, The International Institute For Languages and Commerce English:** 2019 / 2023 Cumulative Grade " Excellent Grading "

Technical Skills
